Hunter House. Paperback. Book Condition: New. Paperback. 160 pages. Dimensions: 6.5in. x 4.5in. x 0.6in. The metabolic process known as aging can't be stopped, but its effects on the skin can be slowed and even diminished. This breakthrough plan, developed by an author known for research into the links between cortisol, stress, and aging, harnesses the latest advances in nutritional biochemistry and physiology to finally make the process optional. The easy-to-follow FACE (Free radicals; Advanced glycation; Cortisol; Eicosanoids) program incorporates diet, exercise, and natural products to control the cellular basis of aging and prevent and even reverse wrinkles, acne, and other skin problems. The plan addresses multiple metabolic systems from both an inside-out and outside-in perspective and proves that good health and good looks are one and the same. The book contains a step-by-step one month sample program and covers many aspects of skin and its care, including skin types and problems; improving skin tone; the stress-beauty connection; and ingredients to avoid when purchasing cosmetics. Appendices offer recipes, an exercise program, and product resource lists. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
