Brand New Book ***** Print on Demand *****.AWARD-WINNING FINALIST USA Best Book Awards - In the top six nationally in the New Age Nonfiction category 2012. Since her spontaneous awakening to cosmic consciousness in 1975, visionary Charol Messenger has been unveiling revelations from the Universal Consciousness for the world and humanity. HUMANITY 2.0 unveils ground-breaking new revelations of humanity's genetic evolutionary leap that is happening right now, through activated dormant DNA, particularly in those born since the 1970s. This is most evident in increased brain capacity, psychic and intuitive abilities, health and longevity, and spiritual awakening. Insights in this book answer numerous universal questions, such as: why are we here, where did we come from, who are we, what is consciousness, what is the nature of reality and the cosmos, what is dark energy, what was before the Big Bang; plus, how the universes are expanding, time is speeding up, the earth's magnetic zones are in a new phasing, and global trends this century and the next. In an interview by The Futurist magazine, senior editor Rick Doksaï said, I was wowed personally. Profoundly spiritual. Does touch on a lot of themes that are very relevant to the World Future Society. Another voice of hope for progress. In a recent Midwest Book Review, senior reviewer D. Donovan wrote, New age, spirituality, and science too seldom cross paths. Here is a wide-ranging discussion that includes: DNA, the cosmos, evolution, psychology, energy sources in the universe, and visionary thinking. Many new, enlightening concepts. from how to recognize and use options provided by the universe to how to acknowledge the presence, effects and purposes of synchronicity in one's life, why the human species...
