

## Videofluoroscopic Studies of Speech in Patients with Cleft Palate

By Ellen R. Cohn

Springer. Paperback. Book Condition: New. Paperback. 186 pages. Dimensions: 9.9in. x 6.9in. x 0.6in. In Videofluoroscopic Studies of Speech in Patients with Cleft Palate, Drs. M. L. Skolnick and E. R. Cohn present multiview videofluoroscopy as a technique for the radiological evaluation of speech defects in patients with cleft palate. Dr. Skolnick's invaluable contributions as both the originator and leading authority on the subject are discussed in a concise, clinical fashion. Topics examined include the anatomy and imaging of the velopharyngeal portal; the equipment and techniques of multiview videofluoroscopy; the interpretation of results and various patterns of velopharyngeal closure; Passavant's Ridge and patterns of velopharyngeal closure; normal and abnormal speech production; and the evaluation of test results. This book is the only source which concisely and completely describes the technique and its interpretations for those who need a description of the clinical procedure. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
